SUMMARY

Analytical and detail-oriented data analyst with 4.5 years of experience in both public service and private energy infrastructure sector. Skilled in developing and refactoring complex SQL models, designing interactive dashboards, and delivering reliable insights to end-users. Proven record of utilising creative methods to automate data workflows and minimise manual processes. Committed to continuously learning new technologies and best practices in the data field.

EXPERIENCE

Data Analyst | MODEC Offshore Production Systems

APR 2025 – PRESENT

- Build and maintain Power BI reports to track product analytics, team KPIs, operational metrics, and Azure costs using a customised Python-based cost forecasting model
- Develop and maintain SQL models, while collaborating with data engineers and product owner to align upstream data pipelines with end-user requirements and deliver analytics-ready datasets
- Refactored SQL query logic and implemented targeted indexing strategies, achieving a 24% reduction in runtime and resource usage
- Improved data pipeline utilisation from 31% to 75% by diagnosing parallelism bottlenecks and deploying an automated Python runtime-balancing solution
- Establish and promote data warehouse and Power BI visual standards, serving as a core member of an internal data analyst community to deliver monthly presentations on Power BI performance optimisation strategies

Statistics Senior Executive | Central Narcotics Bureau

MAY 2022 – APR 2025

- Utilised IBM Cognos Analytics, SQL, Tableau, and Microsoft Excel for data cleaning, processing, and visualisation, producing regular reports and visualisations to monitor performance metrics
- Worked closely with other departments, senior management, and regional stakeholders to understand data requirements and present data-driven recommendations, influencing policy formulation and operational efforts
- Automated data processing tasks by creating SQL scripts and management dashboards, reducing manual actions by 75%
- Provided guidance and training on data analysis tools and techniques to staff from various departments, fostering a data-driven culture within the organisation
- Led the publication of the 2023 and 2024 annual statistical release, ensuring data integrity and accuracy, and received CNB's Commendation Award for exceptional performance

System Development and UX Intern | Singapore Police Force

MAY 2021 – JUL 2021

- Supported user testing and project management for the implementation of a new human resource and operations system
- Re-designed training materials for ground officers and manpower staff, incorporating user-centered design principles to enhance usability and understanding
- Formulated and presented change management and training strategies to ensure successful uptake of system

SKILLS

- Microsoft Certified: Power BI Data Analyst Associate
- Data Analytics and Scripting: SQL, Python, R, SPSS
- Cloud and DevOps Tools: Azure DevOps, Git
- Business Intelligence Platforms: Power BI, Tableau, IBM Cognos Analytics
- Project Frameworks: Agile/Scrum sprints
- Microsoft Office: Excel, PowerPoint, Access, etc.
- Languages: Proficient in English and Chinese]

EDUCATION

Bachelor of Social Science (with Honours) in Psychology (Distinction) | Nanyang Technological University

AUG 2018 – JUL 2022

- President Research Scholar and recipient of Undergraduate Research Excellence Award 2020
- Vice-President (2020-2021) and Treasurer (2019-2020) of NTU Symphony Orchestra
